

GOLDEN STATE ORTHOPEDICS - BRAD LAPOINT CEO/DISTRIBUTOR PRINCIPAL

- How did you become interested in orthopedics?
- How long have you been actively involved?
- How many years did you have to do to school for your career?
- Are you the founder of Golden State Orthopedics? If so, why did you decide to start your own company?
- What is your typical day at work? Do you help build prosthetic limbs/understand how they are built?
- What has been your greatest failure in your career?
- What has been your greatest accomplishment in your career?
- What is most rewarding about what you do?
- If I said I wanted to do your job one day, what can I do right now to get started?
- Did you have any mentors? If so, how did they help you?
- Are you passionate about your job and why?
- What about you and your business do you think we should know more about?

We are hoping to build a prosthetic limb for our senior engineering project.

*need to check his availability and figure out what days/time we want to meet
